Objectives

Aspiring Frontend Developer skilled in React.js, Tailwind CSS, and Firebase, with knowledge of JavaScript and MERN stack.Eager to contribute to collaborative teams by creating accessible, utilizing creative problem-solving and strong communication skills.

Skills

Frontend
- React.js,Tailwind CSS,Firebase,Next.js

Backend
Node.js,Express.js

Language
C,Javascript

Version Control System
Git

Database
MongoDB

Soft Skills
Team Collaboration,Active Listener,Communication

Projects

Champion ⬀   07/2025 – 07/2025
Client ⬀ **|Server** ⬀
Champion is a Full-stack web application streamlining sports club operations with court management, membership systems, and integrated payment processing.
- Built a full-featured **sports club management platform** with role-based authentication and admin dashboards.
- Designed and automated **booking workflows** with real-time scheduling and facility management.
- Implemented **secure payment integration** to streamline member transactions and enhance reliability.

Technology: React.js · MongoDB · Firebase · Node.js,Stripe

FreshKeep ⬀   06/2025 – 06/2025
Client ⬀ **|Server** ⬀
FreshKeep is a Full-stack application designed to minimize food waste through intelligent shelf-life monitoring and comprehensive food inventory management.
- Developed a **food tracking platform** with user authentication and full CRUD operations for inventory management.
- Implemented **real-time inventory updates** and automated notifications to prevent food spoilage.
- Built a **secure note system** to store and manage protected user notes.

Technology: React.js · Node.js · MongoDB · Firebase

GardenHub ⬀   06/2025 – 06/2025
Client ⬀ **|Server** ⬀
GardenHub is a resource community platform connecting gardeners through knowledge sharing, user discovery and interactive dashboard analytics.
- Built a **gardening community platform** with user browsing and profile exploration features.
- Designed an **active gardener ranking system** to boost engagement and recognition.
- Implemented **interactive tip-sharing functionality** for community knowledge exchange.

Technology: React.js · Node.js · MongoDB · Firebase

Education

Bachelor of Science in Textile Engineering (Major in Wet Process Engineering)   2022 – Present
